

Boulder Valley Credit Union's Green Mission Statement

Boulder Valley Credit Union believes that economic growth and the well-being of society are inextricably tied to the health of the environment. Accordingly, we embrace our responsibility for environmental stewardship and are committed to integrating leading environmental practices and sustainability principles into our core business strategy.

We make efforts to operate our business in an environmentally responsible manner. We are committed to compliance with all applicable environmental laws and regulations. Moreover, through collaboration with our employees, members, business partners and suppliers, we will actively work to reduce the environmental impact of our business activities.

We achieve a high level of performance by incorporating these objectives into our business.

- Be guided by the principle of continuous improvement of environmental performance.
- Commitment to the three R's
 - Reduce waste consumption
 - Reuse what we have
 - Recycle everything we can
- Enhance indoor environmental quality.
- Train employees on our policy and practices, and instill environmental responsibility as a corporate value.
- Strive to buy, and use environmentally friendly products whenever possible
- Raise environmental awareness among our associates, members and communities.
- Establishing and reporting on key environmental performance indicators.

We acknowledge that, in many ways, we, like the global community we serve, are only in the early stages of developing and implementing the many changes that will be necessary to achieve these vital goals. Nonetheless, we strongly believe that our efforts to support a healthy environment serve the interests of both current and future generations and constitute the foundation for enduring success.
